How to Download and Transfer eBooks to an eReader

Required software and authorization

1. Before you can download library books to your eReader, you will need to install Adobe Digital Editions software on your computer. Here are two ways to access this software:

Go to www.adobe.com/products/digitaleditions and follow the instructions.

Go to the Nassau Digital Doorway <http://nassau.lib.overdrive.com>. On the left side of the page, put your mouse where it says Digital Software and then click on Adobe Digital Editions (ADE).

2. Open Adobe Digital Editions. You will be prompted to create an Adobe account and then to authorize your computer as one of your five devices. You **MUST** create an account or you will not be able to transfer eBooks from your computer to your eReader. You cannot download eBooks directly to your eReader. An eBook can only be transferred with Adobe Digital Editions.

3. With Adobe Digital Editions open, attach the eReader to your computer via the USB port. You will be prompted to authorize the eReader. Follow the click through path to authorize the device.

TIP: On a PC, the eReader will show up if Adobe Digital Editions is already open, and might not show up if you connect the eReader first. On a Mac, the eReader may not show up if Adobe Digital Editions is already open when the eReader is attached. Attach the eReader and then open Adobe Digital Editions.

Searching for and downloading eBook titles

1. Minimize ADE software and go to the Nassau Digital Doorway. <http://nassau.lib.overdrive.com>

2. You can search for eBooks in the following ways: Entering title/keywords in the search bar; browse by format; browse by subject. eBook titles will appear with format specific indicators (i.e. PDF or ePub).

4. After you have added an available title to your cart, select "Proceed to Checkout." Login by choosing the Hicksville Public Library and entering your library card number. Select "Confirm check out."
