

How To Transfer OverDrive Audiobooks to an iPod

Windows

1. Install OverDrive Media Console for Windows v3.2.0.5 (or newer).
2. Install Windows Media® Player 9 series (or newer).
Install iTunes® v9.1 (or newer).
Enable the iTunes setting 'Manually manage music...' for the device.
 - a. Connect the device to your computer.
 - b. If it does not launch automatically, open iTunes.
 - c. Locate the device in the left vertical navigation panel (under heading 'DEVICES').
Click the device.
The 'Summary' screen is displayed.
 - d. Place a checkmark next to the option 'Manually manage music...'
 - e. Click the 'Apply' button.
The changes are saved.
 - f. If desired, close iTunes.
3. From a Windows computer, MP3 Audiobooks and most WMA Audiobooks may be transferred to an Apple device. To transfer:
 - a. Open OverDrive Media Console.
 - b. Select a title.
 - c. Click the 'Transfer' button. The 'Transfer Wizard' opens.
 - d. Follow the prompts to complete the transfer.

Mac

1. Install OverDrive Media Console for Mac.
Install iTunes® v7.6.2.9 (or newer).
Enable the iTunes setting 'Manually manage music...' for the device.
 - a. Connect the device to your computer.
 - b. If it does not launch automatically, open iTunes.
 - c. Locate your device in the left vertical navigation panel (under heading 'DEVICES').
Click the device.
The 'Summary' screen is displayed.
 - d. Place a checkmark next to option 'Manually manage music...'
 - e. Click the 'Apply' button.
The changes are saved.
 - f. If desired, close iTunes.
2. From a Mac computer, MP3 Audiobooks may be transferred to an Apple device. To transfer:
 - a. Open OverDrive Media Console.
 - b. Select a title.
 - c. Click the 'Transfer' button. The 'Transfer Wizard' opens.
 - d. Follow the prompts to complete the transfer.
